HiFULDM Facial

01 OxyFacial

A program that safely and swiftly calms sensitive skin after a skincare treatment.

Helps clear the skin by providing oxygen and nutrients, while also soothing and improving irritation.

02 OXY-FU 1.5 / 3.0 / 4.5 / 9.0mm

Facial lifting, enhancing elasticity, and contouring using high-intensity focused ultrasound

Emits powerful ultrasound energy to target specific deep tissues, creating heat coagulation points and allowing for immediate lifting.

03 OXY-FX(HiLDM)

Waterful lifting management using high-density frequency ultrasound.

By stimulating tired skin tissues to produce collagen and elastin, it helps make the skin more elastic.

- Face 3,10,19MHz / Boosts hydration and achieves a dewy effect
- Face & Body 1,3MHz / Elasticity · V-Line Management

04 OXY-RF

Radio frequency treatments for hydrated, firm skin and a smooth, slim body.

Provides users with stability and efficiency through smooth wavelengths, consistent output, and a stable frequency.

- Face 6.2MHz / Elasticity Management
- Body 1MHz / Cellulite Management
